

## § 970.208

(i) The annual tons and dollar value of any of these minerals and metals so purchased, sold or produced for the two preceding years;

(ii) Copies of the annual report, balance sheet and income statement for the two preceding years; and

(iii) Copies of each document submitted to the Securities and Exchange Commission.

### § 970.208 Fee.

(a) *General.* Section 104 of the Act provides that no application for the issuance or transfer of an exploration license will be certified unless the applicant pays to NOAA a reasonable administrative fee, which must reflect the reasonable administrative costs incurred in reviewing and processing the application.

(b) *Amount.* In order to meet this requirement, the application must include a fee payment of \$100,000, payable to the National Oceanic and Atmospheric Administration, Department of Commerce. If costs incurred by NOAA in reviewing and processing an application are significantly less than or in excess of the original fee, the agency subsequently will determine those differences in costs and adjust the fee accordingly. If the costs are significantly less, NOAA will refund the difference. If they are significantly greater, the applicant will be required to submit the additional payment prior to issue or transfer of the license. In the case of an application for transfer of a license to an entity which has previously been found qualified for a license, the Administrator may, on the basis of pre-application consultations pursuant to § 970.200(d), reduce the fee in advance by an appropriate amount which reflects costs avoided by reliance on previous findings made in relation to the proposed transferee. If an applicant elects to pursue the 'banking' option under § 970.601(d), and exercises that option by submitting two applications, only one application fee needs to be submitted with respect to each use of the 'banking' option.

[46 FR 45898, Sept. 15, 1981, as amended at 47 FR 5966, 5968, Feb. 9, 1982]

## 15 CFR Ch. IX (1-1-05 Edition)

### PROCEDURES

### § 970.209 Substantial compliance with application requirements.

(a) Priority of right for the issuance of licenses to new entrants will be established on the basis of the chronological order in which license applications which are in substantial compliance with the requirements established under this subpart are filed with the Administrator pursuant to § 970.200.

(b) In order for an application to be in substantial compliance with the requirements of this subpart, it must include information specifically identifiable with and materially responsive to each requirement contained in §§ 970.201 through 970.208. A determination on substantial compliance relates only to whether the application contains the required information, and does not constitute a determination on certification of the application, or on issuance or transfer of a license.

(c) The Administrator will make a determination as to whether the application is in substantial compliance. Within 30 days after receipt of an application and the opening of coordinates describing the application area, he will issue written notice to the applicant regarding such determination. The notice will identify, if applicable, in what respects the application is not in either full or substantial compliance. If the application is in substantial but not full compliance, the notice will specify the information which the applicant must submit in order to bring it into full compliance, and why the additional information is necessary.

[46 FR 45898, Sept. 15, 1981, as amended at 47 FR 11513, Mar. 17, 1982]

### § 970.210 Reasonable time for full compliance.

Priority of right will not be lost in case of any application filed which is in substantial but not full compliance, as specified in § 970.209, if the Administrator determines that the applicant, within 60 days after issuance to the applicant by the Administrator of written notice that the application is in substantial but not full compliance, has brought the application into full
